THE BRITISH COLUMBIAN.

NO. 95. VOL. 7.] NEW WESTMINSTER, SATURDAY, JANUARY 18, 1868. [PRICE 6d. or 12 cts.

THE "LEAP IN THE DARK," AND ITS RESULTS.

The British Reform Bill of 1867 has been facetiously called "a leap in the dark." That it was a tremendous leap, especially for a professedly Conservative Ministry to take, there is no denying; but that it was taken altogether in the dark may be open to question. Certain it is that the leap was taken without a proper weighing of ultimate consequences by the representatives of the Aristocracy of England, for in the direction of Democracy it assuredly is, and in Democracy it is almost certain to eventuate. Already signs of fear and trembling are evinced by the old governing class; and the very men who passed the measure are likely to be the first to feel its force in a way which can scarcely be altogether agreeable. The new element brought within the pale of the franchise is all astir—is evidently not slow in realizing the situation; and all sober, honest statesmen are anxiously waiting to see whether the people forming that newly enfranchised class have the sense to make a good use of the political privileges extended to them by the Reform Bill. The "Working Men's Association" is promptly in the field, and evidently "means business." On the 15th of November this association met, with the irrepressable Potter in the Chair. The object of the meeting was to consider an address which is to be issued to the public, setting forth the views and objects of the association in realizing a direct representation of the labor interest in Parliament by the return of working men as representatives. They define "working men" to be "those obtaining their living by the receipt of wages for mental or bodily labour performed, as distinguished from those who live exclusively on the profits derived from the labour of others." It will thus be seen that the range is somewhat wider than is ordinarily understood by the term "working men," as it includes brain-work, as well as hand-work. The workmen's members are to advocate an extension of the franchise down to the bitter end—"manhood suffrage," the ballot, a just redistribution of seats, the abolition of church rates, improved relations between landlord and tenant, a national unsectarian system of education, legal protection for the funds of trade societies, a well-digested scheme of emigration, and the adoption of measures for facilitating the improvement of the dwellings and work-shops of the laboring classes. The address, embodying the above political creed, was adopted, signed and ordered to be transmitted to the Liberal members of Parliament and to the Press, with a request for its publication. We need hardly say that we most heartily endorse more than one of the "planks in the working men's political platform." Reform Bills for Scotland and Ireland are on the Ministerial programme for the present session of Parliament.

THE MENTAL OUTFIT OF THE NEW DOMINION."—Such is the title under which the Hon. Mr. McGee lectured before the Montreal Literary Club, in November last. In the course of the lecture, which was a very able and instructive one, Mr. McGee gave the postoffice returns showing the number of letters and newspapers circulated through the former Upper and Lower Canada offices, from 1863 to 1867, inclusive. The figures are as follows:

	Letters.	Newspapers.
1863	11,000,000	12,500,000
1864	11,500,000	12,500,000
1865	12,200,000	11,800,000
1866	13,000,000	12,800,000
1867	14,200,000	14,000,000

Mr. McGee mentions that there are about one hundred and thirty journals published in the four confederated provinces.

A BEAUTIFUL INCIDENT.

William IV. expired about midnight if we remember right, at Windsor Palace. The Archbishop of Canterbury, with other peers and high functionaries of the kingdom, were in attendance. As soon as the "sceptre had departed" with the last breath of the king, the Archbishop quitted Windsor Castle, and made his way, with all possible speed, to Kensington Palace, the residence at that time of the Princess—already by the law of succession Queen—Victoria. He arrived long before daylight, announced himself, and requested an immediate interview with the Princess. She hastily attired herself, and met the venerable prelate in her ante-room. He informed her of the death of William, and formally announced to her that she was in law and right successor to the deceased monarch. "The sovereignty of the most powerful nation lay at the feet of a girl of eighteen." She was, *de jure*, queen of the only realm, in fact or history, "on which the sun never sets." She was deeply agitated at "the formidable words so fraught with blessing or calamity." The first words she was able to utter were these, "I ask your prayers in my behalf."

They kneeled together, and Victoria inaugurated her reign, like the young King of Israel in the olden time, by asking from the Highest who ruleth the kingdom of men, "an understanding heart to judge so great a people who could not be numbered or counted for multitude."

The sequel of her reign has been worthy of such a beginning. Every throne in Europe has tottered since that day. Most of them have been for a time over-turned. That of England was never so firmly seated in the loyalty and love of the people as at this hour. Queen Victoria enjoys personal influence, too,—the heartfelt homage paid her as a Christian woman—incomparably wider and greater than that of any monarch now reigning.

THE late Professor Faraday belonged to a sect called Sandemanians or Glassites. Of late years Dr. Faraday, who was an elder, frequently preached in a Glassite chapel in Goswell road.

THE Pan-Anglican Council passed a resolution requesting all English chaplains upon the continent of Europe to pray for the President of the United States as well as the Queen of England.

IN the village of Hull, on the Ottawa river, Mr. E. B. Eddy has mills which turn out 100,000 feet of lumber per day; 13,000 matches per minute; 2,500 pails, and 500 tubs in 24 hours.

FRENCH-ENGLISH.—"I'm going to ride *at* the country," said a Frenchman. "You should say ride *in* the country," remarked his friend. "Ah! yes—ver good," responded Mossou, "and ven I come back, I vill knock *in* your door."

Two lawyers, when a knotty case was o'er,
Shook hands, and were as good friends as before.
"Zounds!" said the losing client; "how come you
To be such friends, who were such foes just now?"
"Thou fool!" says one; "we lawyers, though so keen,
Like shears, ne'er cut ourselves—but what's between.

SATURDAY, JANUARY 18, 1868.

RECIPROCITY—WHAT WOULD IT DO FOR US?

One is very apt to run away with the abstract notion that a reciprocity treaty between this Colony and the United States would prove an unmixed good; but a little reflection will serve to convince most persons that the idea is susceptible of very great modification, that, in fact, it would depend on the nature of that treaty whether it would prove a blessing or the reverse. A passage in "A Farmer's" communication which we publish in another part of the present impression, is suggestive of a fitting train of thought upon this subject. "The notion of a *mutual* exchange of products," says our correspondent, "is preposterous when one party has *very little* and the other *too much* of the same article." Does not this exactly indicate the position of British Columbia as compared with the contiguous States? It has been said that one of the blessings which confederation will bring to us is a reciprocity treaty with the United States; but is it not just possible that it might bring to us a treaty which would turn out to be a curse, instead of a blessing? Is a treaty framed to meet the condition of things existing in an old and wealthy country such as Canada likely to suit our interests out here? In Canada agriculture is thoroughly established, upon fully as broad and enlightened a basis as it is in the States contiguous thereto, and in nothing do the Canadian farmers need to fear competition with their neighbors. With an equally good climate, with soil not in any respect inferior, with equal means, appliances and skill, and with much less taxation, the Canadian farmer is in every respect a match for his cousin, in fair and open competition. It is to a great extent the same with regard to the manufacturing interests, interests which have taken such an amazing stride in Canada of late. But if the scene be shifted to the Pacific, how changed are all the conditions. With agriculture in the bud, fast swelling, it is true, under the genial sunshine of *protection*, with manufactures still unquickened in the womb of futurity, with almost every interest, in fact, just struggling to gain a foot-hold on the Pacific slope, are we in a position to throw the markets of the Colony open to our American neighbors with advantage to ourselves? or is a reciprocity treaty, framed by Canadian statesmen, fitted to Canada's circumstances, likely to conduce to the agricultural interests of this Colony? We fear that these questions must be answered in the negative. That we want a reciprocity treaty everyone feels; and that such an one as would meet our circumstances would be of great benefit to the country is equally obvious; but it must be admitted that the commodities we would have to exchange with our neighbors are very few in number. Indeed, what is there that we would really seek a market for in the States, with the exception of wood, coal, fish and the product of fish? That these articles, few in number, to be sure, are of immense importance to us is indisputable. Our lumber interests are, indeed, immense, and as superior in quality as it is extensive in quantity. Although only a few samples, comparatively speaking, have been sent out to the various markets of the world, already do we find ships coming from afar under special instructions to load with our lumber, *and no other*! Our spars, too, will soon have acquired a world-wide reputation for their excellence. In spars we can do well enough without resorting to the States for a market; but in the manufacture of lumber it would be of immense advantage to have an open market in San Francisco, where the smaller class could be readily converted into gold. Without this the Puget Sound Mills must possess a great advantage over our own. Coal, too, is another of our most important resources. We have it, from the common article up to the finest quality of anthracite, and in such quantity that many generations would not exhaust the beds. For coal especially do we need an open market at San Francisco; for it is there that the greatest demand would arise. Coming to the question of fish, we have to deal with a subject so vast and so varied in its interests, and at the same time, so little understood and so much overlooked, that we almost hesitate to introduce into this article what ought to form the subject of a distinct paper. We will, therefore, merely remark upon this head that fish and the product of fish must form an important interest in respect of which reciprocity with the United States would confer very great advantages upon this Colony. But, having said this much have we not said all? Beyond these three interests or resources, what have we got to export for which we want an American market? Canada has fish. Her fisheries, like our own, are immense, and she would doubtless wish to sell the produce of them at the nearest market. But she has neither lumber nor coal demanding admittance into the United States markets; for, although she has both coal and wood enough to spare, yet the Eastern States possess extensive pineries and coal-beds of their own. It will thus be seen that of the three commodities for which British Columbia would seek to enjoy an open market in the States through the medium of a reciprocity treaty Canada has only one. It would, therefore, appear to be almost certain that a treaty adapted to Canada would be utterly unsuited to British Columbia. Were we to admit all that Canada could and would admit with advantage to herself we should only be cutting the throat of some of those interests important in themselves, and to which present protection is life. Indeed, there can be little doubt that for some time to come, protection is our true policy, with the exceptions already adverted to; and it is an important enquiry how a reciprocity treaty, suited to the circumstances of British Columbia, can be brought about with the Pacific States. Tariffs, and all relating thereto, being essentially matter for Federal legislation, one sees great difficulties in the way of a local or exceptional treaty; and, as the same remark will apply to action on our part in this matter, after we shall have become a part and portion of the great Confederation, it might be well that our Government should at once place itself in communication with the authorities at Ottawa, for the purpose of having the interests of British Columbia kept in view, as far as may be compatible with other and larger interests, in framing a reciprocity treaty with the United States of America. This is a most important subject, one which can by no means be exhausted in a single article; for, we feel that while it is of the very greatest importance that the San Francisco market should be thrown open to our wood, coal and fish, we equally feel that to open our ports to the Americans as wide as the Canadians might find it to their advantage to do, would, perhaps, prove an evil to us, greater than any counterbalancing good. The matter may, after all, resolve itself, as our correspondent hints, into a bounty system, for the present. That principle was recognized by the Legislature, last session, in respect to the one article of lumber, although, doubtless owing to the state of our finances, it was never carried into effect by the Executive. We are by no means blind to the objections and difficulties which surround the bounty system; but we can easily conceive a young colony like this to be placed in circumstances which would outweigh every objection which can fairly be urged against

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

[illegible] wonderful ingredient of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York, Sole Proprietors.

Redington & Co., San Francisco. Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known: Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic.
J. W. HEWITT,
Foreman for Amer'n, Wells, Fargo's & Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment."
ED. SEELY.
Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & CO. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROMS, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses**, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

TELEGRAPHIC SUMMARY.

EUROPE.

Dates to the 14th inst. Positive advices leave no room to doubt that Dr. Livingston is alive and well. The Fenian agitation had not subsided, but no decided outbreak is recorded. The Fenian Clergy of Tillock had signed a document declaring that there can be no permanent peace till Ireland is treated like Hungary. The clerks in the telegraph office of Belfast were arrested on suspicion of belonging to the Fenians, but were discharged after undergoing an examination. Piggott, editor of the Dublin *Irishman*, was arrested for publishing seditious articles. A number of Fenians arrested at Birmingham, were examined and committed to Warwick jail, where they are strongly guarded. The most thorough precautions were taken to guard against an attempt at rescue on the way to jail; but no attempt whatever was made. It is said that papers found on the person of prisoner Lannan expose the whole plans of the Fenian leaders for future operations in Ireland. The latest advices from Abyssinia say the expeditionary troops remain at Senape, awaiting the arrival of their Commander-in-Chief. Their health was represented as good, but their horses were dying for the want of proper forage, and from intense heat. The natives were everywhere friendly. Telegrams from Aden announce the arrival of Sir Robert Napier, who immediately left for Senape, to place himself at the head of the expedition. All hope of a general conference upon the Roman question had vanished.

The Paris *Moniteur* had contradicted rumours of popular disturbances having occurred at Naples, assuring its readers that perfect tranquillity reigned in that city and surrounding provinces. The adjourned session of the Italian Parliament was resumed on the 11th January. Manabrea made a speech exhorting the members to unite with the Government in resisting revolution and upholding the national credit, as well as the liberty of nation. No reference whatever was made to the Roman question or to the relations of Italy with foreign powers. Italy is the first European power to recognize the restoration of the Mexican republic. Senor Sochevasso is appointed its Minister to Mexico, and will proceed thither immediately. It is rumored that France and Austria sent a joint note to Servia respecting the extraordinary military preparations which are being carried on in that country. Lord Stanly, on behalf of Great Britain, had addressed a similar communication to the Servian Government. General Raily, commander of the Expeditionary Corps, has asked the Emperor to permit the return of the French troops to Rome. Their quarters at Civita Vecchia are overcrowded. This ominous request created a general feeling of uneasiness and distrust. The *Debats*, French semi-official journal, asserts that negotiations are going on between France and Italy for a new treaty to displace the September convention, and that it is rapidly progressing and is now nearly concluded. The bill for reorganization of the army was still under consideration by the Corps Legislatif, and an article has been adopted obliging every Frenchman to serve in the National Guard. An amendment was introduced exempting the infirm, but opposed by Rouher. On New Year's day the King of Prussia sent to Napoleon a cordial autograph note, which was answered in the same conciliatory spirit. Much better feeling has prevailed since the publication of this intelligence. Official Cretan accounts say a battle was fought on the 25th and 26th November, when the Turks were defeated and obliged to retire. The Cretans, it is said, refuse all overtures from Turkey and insist on the expulsion of the invaders.

The head quarters of the Fenians on the Continent of Europe has been discovered in Paris, and a seizure made by the police. Amongst the papers found was one containing the details of a plot to destroy the British channel fleet by fire.

EASTERN STATES.

Dates to 16th inst. The Virginia legislature had adopted articles abolishing slavery forever and declaring that the State shall remain a part of the Union for a fixe period. The most important item of news is the passage of a resolution at Washington, by a vote of 35 to 6 sustaining the President's suspension of Stanton. This vote caused great excitement. It was expected that the reconstruction Bill would pass on the 14th. Grant had yielded his portfolios to Stanton, and the President had taken no action. It was expected that the President would not recognize Stanton, but would transmit all business through the headquarters of the army. Stirring events were momentarily looked for. A bill was introduced granting aid for the construction of a railroad and telegraph line from the Union Pacific road through Idaho, *via* Portland to Puget Sound.

A bill was passed making 8 hours a legal day's work by Government employees. Col. Roberts has resigned the Presidency of the Fenians. General John O'Neill, being Vice-President, is now head of the Brotherhood.

MEXICO.

Mexican advices state that there are only three members of Congress opposed to Juarez.

CALIFORNIA.

SAN FRANCISCO, Jan. 15.—Brevet-Major Gen. Steele, formerly commander of the Department of Columbia, died at San Mateo, of apoplexy, last Sunday. His funeral was largely attended to-day.

A LETTER FROM A FARMER.

MR EDITOR—In a former letter I incidently mentioned road tolls, and now ask for a little space in your paper for a few further remarks on them, and some other matters.

It can scarcely be said that our road tolls are unjust; it is admitted that they are a mere fraction compared with the former cost of conveying goods to Cariboo, and that our miners reap enormous advantage from the roads; but it is thought by many that the tolls are too high, that, as now collected, they are oppressive, and they certainly are unfair, to some extent. If the Government *must* have the money, I see but one way of raising what would be lost by abolishing the tolls at Yale and Douglas; and that is by increasing the Customs tariff. This I think defensible on two grounds:—one, protection to agriculture, as argued in my last, and the other, that the burden would be distributed over a wider surface, which, I think, is just, since the whole of the roads are a charge on the general revenue, and are a public benefit. I would also suggest the removal of the collector from Clinton to, say, Soda Creek, or wherever most convenient, and there to collect one cent per lb. on all imported, and half a cent on all colonial produce, however, or by whatever route conveyed. I take it for granted that it is possible to devise such a system of checks as to prevent smuggling, and secure the payment of all the money to the Government. It seems to me that this change would relieve forwarding merchants, at least a little, by deferring the time of paying the tolls several weeks, as a rule, and that farmers should not complain, for the up-country ones have a splendid market at their very doors for much of their produce, and all would have increased protection. Why should there not be a toll on beef-cattle, passenger vehicles and saddle animals? If cattle pass free beef should also.

One result of abolishing the toll at Yale is to be deprecated, and that is the relief it would afford to the Chinese mining on the Thompson and lower portion of the Fraser; but I would make it square with them—for I don't see why the home Government, with its notions of abstract justice, should step in and say how we shall or shall not raise our revenue, seeing it is we who have to pay the piper—by a poll tax of $5 per head per annum. How many of this unscrupulous, mendacious race now pay mining licenses or register claims?

The tolls at Yale are peculiarly unjust to the owners of roadside houses, on the lower part of the road; for perhaps not one from Yale to Ashcroft is worth the half of what it was in the days of "trails," except the very few having some farming land around them. Trading licenses, I suggest, as being *inequitable*, should be abolished, except for the sale of liquors, breweries and distilleries, and these to be graduated according to the annual value of the premises occupied; and as imported spirits pay so high a duty, those home-made should have a light one levied on them, for I do not regard it as one needing protection, like agriculture, nor to be encouraged like other manufactures.

The question of a reciprocity treaty with the States has, I note, been broached by one of the Victoria papers; but I should like to learn whether B. C. is in a position to be benefitted by such a treaty or not. It would be the death-blow to our agricultural progress; for the notion of a *mutual* exchange of products is preposterous when one party has *very little* and the other *too much* of the same articles. It would doubtless be advantageous to the lumbering and colliery interests, and if a treaty conferring advantages on these and on shipping can be made without sacrificing others, there can be no objection to its being done. If not, and if the higher tariff is likely to injure these, then a small bounty can be granted for a time, but it should be small, for beef and bacon are surely low enough; at least so think many others besides

A FARMER.

THE ENTERTAINMENT AT GOVERNMENT HOUSE.

The musical entertainment given at Government House, on Thursday evening, in aid of the funds of the Royal Columbian Hospital, was a very agreeable as well as a most successful affair. The attendance was large, close upon 200, we should think. The first part of the proceedings consisted in the presentation of the prizes won by Volunteers at their Fall Meeting. The ceremony of presenting these prizes to the victors was performed, and admirably performed, by Mrs. Seymour, each prize being handed to her by Capt. Prichard, the officer in command, and accompanied by an explanation of the circumstances under which it was won, as well as the names of the previous holders of Challenge Cups. The following were the Prizes:—

CORPS PRIZES.

The Governor's Challenge Cup, won by Private C. Good.
Hon. Mr. Birch's Challange Cup, won by Private J. C. Brown.
Ladies' Purse, First Prize, won by Private J. V. Woolsey.
Ladies' Purse, Second Prize, won by Private J. C. Brown.

PRIZES OPEN TO ALL VOLUNTEERS.

The Governor's Challenge Cup, won by Private J. Connell.
Hon. Mr. Birch's Challenge Cup, won by Private Geo. Williams.
Mr. J. T. Scott's Challenge Medal, won by Ensign R. Wollenden.

As each recipient retired with his prize he was enthusiastically applauded by the audience.

THE MUSIC.

This was the principal part of the entertainment and consisted of twelve songs, part songs and solos, all of which were rendered with so much ability that it would be invidious to mention any one in particular; but if one might venture upon the comparitive merits of the singers, the names of Mrs. Macnaughton Jones and Miss Needham are deserving of especial mention. The former especially possesses a most agreeable and highly cultivated voice. Both these ladies were repeatedly encored. Mrs. Claudet presided at the Piano with great ability. The Orpheu Glee Club sang several pieces with their usual ability.

The entertainment concluded with a very amusing drawing-room burletta, which was exceedingly well rendered, and, perhaps, to many, the best of the whole.

At the close the folding-doors were thrown open, and a general invitation to partake of refreshments was extended to the audience, an invitation of which very many availed themselves. The liberality of His Excellency the Governor and Mrs. Seymour in thus affording so rich a treat to the public, and so very handsome and acceptable a donation to a deserving institution, is beyond all praise.

PRISON RETURNS.—Thanks to C. J. Prichard, Esq., J. P., Governor of the Jail, for the following abstract of Prison returns for the month of December, 1867:—In Jail on 1st of the month, 16; received during the month, 12; Discharged during the month, 10; In Jail on the 31st of the month, 18.

ACKNOWLEDGEMENT.—The Board of Management of the Royal Columbian Hospital desire gratefully to acknowledge the receipt of $37, collected at Clinton in aid of the Institution.

THE REVIEWS.—We would direct the attention of our readers to the advertisement of "The Leonard Scott Publishing Co.," from which it will be seen that Blackwood and the four reviews can be obtained here on very reasonable terms. To be without one or more of these valuable periodicals is almost equivalent to groping in literary darkness. Coming to us, as they do, replete with papers upon the most interesting topics of the day, from the ablest pens of the time, no one should deny himself the great advantage of such reading as they afford for the comparatively trifling sum demanded. The whole five can be got for $15. Who amongst us cannot, by weaning himself of some bad habit, or the denial of some useless luxury, save that sum?

VICTORIA ITEMS.—Mr. Legh Harnett delivered a lecture upon the mines and mineral formation of British Columbia to a large audience. The local papers publish a lengthened report of the lecture, and describe it as a most able and interesting effort. He is to deliver a second and final one on Monday.——The Fideliter sailed for Sitka yesterday sennight, with a full freight and 14 passengers. ——H.M.S. Cameleon, with 200 supernumeraries, is expected to arrive from Panama in about six weeks. ——The congregation of St. Andrews Church had held their annual tea-meeting. About 400 people sat down. ——The new trial in the Baromovitch smuggling case came off on the 14th, and resulted, as we anticipated, in a verdict for the defendant. The smuggler's organ is, of course, jubilant over this result.

OUT AT SEA.—Passengers by the Enterprise yesterday report one of the iron buoys drifting in the Gulf. We fear the negligence evinced by the Executive with respect to these buoys will prove an expensive affair.

FROM VICTORIA.—The steamer Enterprise, Capt Swanson, arrived from Victoria, at our outer harbour, yesterday, bringing 40 tons of freight and 20 passengers, amongst whom were Capt. Wylde, Revenue Officer, Mr. Greeley and Mr. Selby and others. She sails at 10 this morning.

SKATING is kept up with great spirit on the ice opposite the Camp.

HOLLOWAY'S PILLS.—Liver, Lungs and Kidneys.—A large number of internal maladies arise from obstructions, over the removal of which these celebrated Pills exercise the most perfect control. A course of them is strongly recommended for almost all chronic affections—as liver complaint, congestion of the lungs, torpidity of the kidneys, and other functional disorders which cause much present suffering, and if neglected lay the foundations of incurable diseases. Holloways Pills are especially adapted for the young and delicate; their gentle and purifying action places them above all other medicines. In indigestion, nervous affections, gout and rheumatism, these Pills have raised for themselves an universal fame. They expel all imparities from the blood, and thus restore cheerfulness and vigor.

WE find in Ayer's American Almanac, (now ready for delivery gratis by all the Druggists) the remarkable statement that the temprature of the earth has not diminished more than 1-396th part of one degree Farenheit for 2000 years. To our enquiry how he could make such an assertion, Dr. Ayer writes us the following answer. "Hipparchus gives the exact record of an eclipse in his time. This enables us to measure with extreme accuracy the earth's diurnal revolutions since to any eclipse now. Diminution of its heat would by concentration, shorten its axis and consequently its time of revolution on its axis. The data show that this change has been only such as I state it, mathematically and indisputably true.—*New York Journal.*

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer feels all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day; keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand-flies,	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Orford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome *humor* in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and DR JONES, New Westminster, and by every dealer in the Colony.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloreaux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds,
Dropsy,	Lumbago,	Weakness from whatever cause, &c., &c.
Dysentery,	Piles,	
Erysipelas,	Rheumatism,	
	Retention of Urine,
